

Effective Health Care

Hand and Foot Numbness

Nomination Summary Document

Results of Topic Selection Process & Next Steps

- Hand and foot numbness is too broad to develop given limited program resources. No further activity will be undertaken on this topic.

Topic Description

Nominator: Individual

Nomination Summary: The nomination emphasizes an interest in knowing the etiology of hand and foot numbness and effective treatment to cure hand and foot numbness.

Key Questions from Nominator:

1. What is a possible cause of hand and/or feet numbness?
2. Is it an extension of an inflammatory disorder?
3. If so, what can a person do to reverse this condition?

Considerations

- The topic of hand and foot numbness is very broad because numerous underlying conditions may be associated with this symptom. This topic could not be evaluated due to insufficient information given in the original nomination. Specifically, the population, interventions, comparators, and policy and/or clinical context are undefined.
